

61 Existence of ringwormGO chess

(Continued) The first step is to show that there exists a solution to the ringwormGO chess problem. This is done by showing that there exists a solution to the ringwormGO chess problem for the first 61 moves of the game (the first 61 moves of the game are the first 61 moves of the ringwormGO chess problem).

It follows from the 60th move of the ringwormGO chess problem that the ringwormGO chess problem has a solution.

ringwormGO chess

§1 Existence of *ringwormGO chess*

By signing this paragraph of this document, you as Stjepan Bilić Matišić (your full name) as CO-CEO (role in the project/non-profit organization *ringwormGO*) agree to co-found *ringwormGO-chess* with Andrej Bartulin (full name of writer of this text).

ringwormGO chess is organization under *ringwormGO*. *ringwormGO chess* is not a project because project is defined “as is” a project in the field of programming (e.g., Termi).
